

Urbanization Basetes 46, Pego, 03780, Marina Alta, Alicante

This new build is close to Adsubia town, Alicante, Spain, built on a big plot of 630m2. Completely private with nice sea views.

As the villa is still to be finished, you still have the chance to choose tiles for the kitchen area, all included in the price. The pool is a big 8 x 4 m. There are electric doors for security and the A/C has been pre-installed. The villa has Mobila wooden beams and all the carpenter-works (like doors, windows etc) are of Iroco wood. South-East facing, so you enjoy the sun all day long. Great opportunity, for those who look for something special. Distance to centre 1 km. Just 15 minutes from Ondara, so it is nearby to the motorway Alicante-Valencia and the largest shopping centre in the area, and only 20 minutes from Denia, where you can find any tourist service and wonderful sandy beaches.
